

Nutrition & Hydration: The Foundation of Healing.

Proper nutrition and hydration are essential for patient recovery and satisfaction. Meals served at the right temperature encourage consumption, while ice provides comfort and supports hydration—especially for patients with swallowing difficulties or post-surgery needs. These simple yet critical details help prevent complications, promote healing, and create a positive care experience.

By prioritizing food quality and hydration, healthcare teams can improve outcomes and enhance patient well-being.

Scotsman®

RELIABLE ICE FOR PATIENT CARE

Ice is essential for hydration, comfort, and care—and Scotsman delivers it all. From in-room service to cafeterias, and physical therapy, Scotsman offers a broad range of machines and ice forms to meet diverse healthcare needs. In fact, Scotsman revolutionized patient care with The Original Chewable Ice™, providing an easy-to-chew option for patients who cannot consume liquids. Today, Meridian™ Series dispensers combine this patient-friendly ice with TouchFree technology for safety, plus space-saving design, antimicrobial protection, and quiet operation. Scotsman ensures hydration and comfort are always within reach.

MEALS SERVED AT THE RIGHT TEMPERATURE

Patient satisfaction starts with meals that arrive hot, fresh, and safe. Aladdin Temp-Rite® Heat On Demand systems ensure food retains its intended temperature from kitchen to bedside, encouraging consumption and supporting recovery. Backed by decades of healthcare expertise, Aladdin offers durable trays, ergonomic carts, and smart workflow solutions that improve efficiency and elevate the dining experience. When every meal matters, trust Aladdin to deliver quality and comfort.

Together, Scotsman and Aladdin Temp-Rite® help healthcare teams deliver meals and hydration with precision, reliability, and care—supporting better outcomes and a more comfortable patient experience.
