

Get the Most Out of Your **Scotsman** Machine

Modular Prodigy Plus® Preventative Maintenance Recommendations

Modular Cubers (E.g. C0322MA/C0322SA)

- Remove the buildup of mineral scale from the ice machine's water system and sensors, which can reduce water and energy usage
- Sanitize the ice machine's dispenser and water system to prevent harmful bacteria buildup
- Clean the air filter and air cooled condenser, which enhances airflow to keep the unit running cool and efficiently, saving you money on water and energy

Modular Nugget Units (E.g. N0422)

- Check the upper breaker bearing and potentially re-grease to ensure the part's longevity
- Remove the buildup of mineral scale from the ice machine's water system and sensors, which can reduce water and energy usage
- Sanitize the ice machine's dispenser and water system to prevent harmful bacteria buildup
- Clean the air filter and air cooled condenser, which enhances airflow to keep the unit running cool and efficiently, saving you money on water and energy

Preventative Maintenance Frequency:

The above recommendations should be followed a minimum of every **6 months**

NOTE: It is recommended that the cleaning frequency is increased in environments with high amounts of airborne pollutants and/or water supplies with high mineral content

Ignoring Preventative Maintenance Can CO\$T Operators...

- ⊗ Higher water usage
- ⊗ Reduced production output
- ⊗ Lower energy efficiency
- ⊗ Mold and bacteria buildup
- ⊗ Increased likelihood for downtime
- ⊗ Shorter machine life expectancy

Warranty

Modular Prodigy Plus® Cubers	Modular Prodigy Plus® Nugget Units
<ul style="list-style-type: none">• 3 years parts and labor on all components• 5 years parts and labor on the evaporator• 5 years parts on the compressor & condenser	<ul style="list-style-type: none">• 3 years parts and labor on all components• 5 years parts on the compressor
Warranty valid in North, South & Central America for commercial installations
